

To whom it may concern,
K-Love radio station is the primary Christian Radio station in our market. In addition to bringing "The Good News" through music and devotionals to the listeners each day, K-love also creates a strong public outreach to our community through the communication and coordination of special events. K-love's impact on the community is tremendous. I consider it a mobile church that meets the needs of our mobile community. With so many negative influences in our society, I ask you to stand up for what is right. Don't allow power or money to alter your decision making for a public service that is priceless.
